

Domain Secure

Secure your domain name today and protect your business identity on the web.

Domain secure is one of the quickest and most cost effective way to get started on the internet without a major committment.

DomainSecure is for people or companies that:

- have not yet decided whether to go ahead with a full website solution but do not want to loose their domain name to a competitor.

- want to avoid the real issue of Cybersquatting. Cybersquatting is the act of registering a popular internet address - usually a company name or popular term with the intent of selling it to its rightful owner or the rightful owners competitors.

The costs are minimal but can pay dividends in the long term.

What's included: Subject to availability, a domain name of your choice automatic re-registration of your domain name until we get written authority to cease, or you decide to take one of our other cost effective web site packages.

Prices: From ?19 per annum depending on the chosen domain name extension. Please contact us for further information on this service.
